

AdventureRak

AdventureRak and Accessories

AdventureRak Cargo Basket

The open design of the BVG AdventureRak Roof basket allows for carrying of camping gear, luggage, utility containers and soft cargo bags. The tubular side rails prevent the load from shifting and also provide great attaching points for the optional BVG Stretch Net. Standard dimensions are 37.5" wide X 43.5" long X 4" high. The innovative 2-piece design can be extended by inserting the optional 21-inch extension piece into the center of the BVG AdventureRak (much like a dining room table's leaf). This increases the length of the AdventureRak to 64.5". The BVG AdventureRak is treated with an E-coat process then finished with durable textured black powder coating. Designed to last, the finish resists scratches and nicks and can withstand the harsh elements. The BVG AdventureRak will mount to your factory roof racks or multi-sport rack systems (i.e. Yakima, Thule). Easy installation takes only minutes.

AdventureRak Basket **9000-0007**

Two year manufacturer's warranty.

Replaces approximately
20 stretch cords

Cargo Stretch Net

Forget using rope or stretch cords, the BVG Stretch Net replaces 20 stretch cords and it is one piece! Like a huge spider web, the net fits over the AdventureRak with high quality nylon hooks. The BVG Stretch Net will work on most truck beds and factory racks too. Stores conveniently into included re-useable mesh bag. Dimensions are 40" Long x 50" Wide. Available in Black only.

Cargo Stretch Net **9000-0038**

One year warranty.

Weighs only 18 lbs. (25 lbs. with extension), but holds up to 200 lbs. of cargo!!

Unique Mounting System - Fits All Rack Shapes!

Weather resistant, heavy-duty steel construction

Extends To 64.5" Long with Optional Extender!

AdventureRak Extension

This great option adds 21" and 6 square feet of capacity to the AdventureRak basket. Add multiple extensions if you want to cover the length of your roof. Additional Load bars are required to support the AdventureRak when adding more than one extension. The BVG AdventureRak extensions are treated with an E-coat process then finished with durable textured black powder coating. Designed to last, the finish resists scratches and nicks and can withstand the harsh elements. Easy installation takes only minutes.

Adventure Rak Extension **9000-0008**

Two year warranty.

Mounts to front or back

Light Bracket Kit

BVG offers these auxiliary light brackets that mount onto your AdventureRak. Universal mounting bracket allows it to work with most lights on the market. Comes in pairs. Brackets are E-coated prior to powder coating to prevent nicks, chips and scratches while providing years of use in the elements.

Light Bracket Kit **9000-0102**

Two year manufacturer's warranty.
